PROFESSIONAL SUMMARY

UI/UX Designer and Associate Software Developer with 3+ years of experience designing and developing enterprise web, mobile, fintech, defense, and SaaS applications. Specialized in transforming complex business requirements into scalable, intuitive, and accessible user experiences using modern design systems and front-end technologies. Experienced in building responsive interfaces, workflow-driven dashboards, banking systems, and enterprise platforms using Angular, React, JavaScript, HTML, CSS, Figma, and Adobe XD. Strong understanding of interaction design, accessibility standards, user psychology, frontend architecture, and cross-functional product collaboration.

TECHNICAL SKILLS

- **UI/UX Design:** Wireframing, Prototyping, User Research, User Flows, Information Architecture, Interaction Design, Accessibility Design, Design Systems
- **Frontend Development:** Angular, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Component-Based Architecture
- **Tools and Platforms:** Figma, Adobe XD, Photoshop, Illustrator, Fig Jam, Balsamiq, Justinmind, Canva, Webflow
- **Frameworks and Systems:** Material UI (MUI), Carbon Design System, Bootstrap, 8pt Grid System
- **Additional Expertise:** Typography, Colour Theory, WCAG Accessibility, Usability Testing, Cross-functional Collaboration, UX Strategy

PROFESSIONAL EXPERIENCE

Associate Software Developer + UI/UX Designer | Rumango Software Solutions Pvt Ltd

September 2025 - Present | Bangalore, India

- Designing and developing scalable enterprise-grade web applications using Angular, React, JavaScript, HTML, and CSS
- Translating complex UI/UX workflows into reusable frontend components with pixel-perfect implementation and responsive behavior
- Collaborating with product owners, developers, and QA teams to improve usability, accessibility, and workflow efficiency
- Leading redesign initiatives for internal enterprise modules, improving operational efficiency and reducing navigation complexity
- Developing modern dashboard systems, workflow interfaces, and banking modules aligned with scalable design systems
- Ensuring accessibility compliance, cross-browser optimization, responsive layouts, and frontend consistency across products
- Contributing to frontend architecture decisions, reusable component strategies, and interaction design improvements

UX Designer | Bharat Electronics Limited (BEL)

→ January 2025 - September 2025 | Bangalore, India

- Designed secure, intuitive, and high-usability interfaces for defense-sector applications and monitoring systems
- Created responsive dashboards and mission-critical interfaces focused on clarity, workflow optimization, and accessibility
- Applied modern UX methodologies, 8pt grid systems, typography systems, and scalable component structures
- Built wireframes, prototypes, interaction flows, and data visualization screens using Figma and Adobe XD
- Collaborated closely with engineering teams to ensure accurate frontend implementation and design consistency
- Improved interface usability through UX refinements, visual hierarchy improvements, and workflow simplification

UX Designer and Graphic Designer | Rumango

→ February 2023 - January 2025 | Bangalore, India

- Led UI/UX design for ICUST banking platforms, enterprise dashboards, and responsive web applications
- Conducted user research, usability analysis, and workflow optimization to improve engagement and product efficiency
- Designed high-fidelity interfaces, visual assets, design systems, and interactive prototypes for enterprise products
- Worked closely with developers to ensure design feasibility, accessibility standards, and implementation consistency
- Created branding assets, icon systems, marketing creatives, and responsive layouts for multiple business domains

Freelance UI/UX Designer | Krenai Pvt Ltd

→ February 2022 - May 2022 | Remote

- Designed maintenance management systems, responsive websites, and e-learning platforms for client projects
- Delivered user-centric interfaces through wireframing, prototyping, iterative UX improvements, and usability testing
- Managed multiple design projects simultaneously while maintaining strong client communication and timely delivery
- Developed responsive layouts and scalable design systems aligned with modern UX standards

KEY PROJECTS

ICUST Banking Application

- Designed enterprise banking workflows, dashboards, and responsive interfaces for improved operational efficiency
- Simplified complex financial interactions using scalable UI systems and intuitive navigation structures
- Created reusable design components and workflow-driven experiences using Figma and Adobe Creative Suite

Car Dealership Mobile Application

- Designed responsive mobile-first user interfaces focused on customer engagement and streamlined booking experiences
- Improved mobile usability through optimized navigation patterns, interaction design, and visual consistency
- Built high-fidelity interactive prototypes and scalable mobile UI components

SIAS ETL Tool Design

- Designed workflow-based ETL interfaces simplifying complex technical data operations and monitoring systems
- Improved usability through structured information hierarchy, process visualization, and intuitive workflows
- Conducted ETL domain research to optimize user interactions and operational efficiency

TransAble Accessibility Platform

- Designed accessibility-focused mobile interfaces supporting deaf, mute, and visually impaired users
- Developed inclusive UI systems supporting speech-to-text, sign language translation, and haptic interactions
- Built premium accessibility-driven design systems focused on usability and inclusivity

EDUCATION

Bachelor of Technology (B.Tech) | Silicon Institute of Technology, Bhubaneswar

2019 - 2023

Higher Secondary Education (CBSE) | Time's Scholar's Gurukul, Bhubaneswar

2017 – 2019

ADDITIONAL INFORMATION

Operating Systems: Windows, Android, iOS

Soft Skills: Communication, Collaboration, Problem Solving, Adaptability, Attention to Detail, Team Coordination
